Members of the Board:

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Hooks Independent School District (the District) as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Hooks Independent School District as of August 31, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter — Change in Accounting Principle

As discussed in Note I to the financial statements, during the year ended August 31, 2025, the District implemented **GASB Statement No. 101, *Compensated Absences***. As a result, beginning net position was restated to recognize compensated absences in accordance with the new standard. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-11, budgetary comparison information on page 50, schedule of the District's proportionate share of the net pension liability (TRS) on pages 51-52, schedule of District contributions to TRS on pages 53-54, schedule of the District's proportionate share of the OPEB liability (TRS) on pages 55-56, and schedule of District contributions to TRS OPEB plan on pages 57-58 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Hooks Independent School District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises of reports required from Texas Education Agency identified in the Table of Contents as J-1 through J-4, and L-1. The other information does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 22, 2026, on our consideration of the Hooks Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Hooks Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hooks Independent School District's internal control over financial reporting and compliance.

HOOKS INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of Hooks Independent School District, discuss and analyze the District's financial performance for the fiscal year ended August 31, 2025. Please read it in conjunction with the independent auditors' report and the District's Basic Financial Statements.

FINANCIAL HIGHLIGHTS

The District's net position was \$19,576,469 at August 31, 2025. Program revenues accounted for \$2,393,941 or 14.45% of total revenue, and general revenues accounted for \$14,178,363 or 85.55%.

During the year, the District had expenses that were \$2,048,571, less than the \$16,572,304 generated in tax and other revenues for governmental programs.

On Exhibit C-1, the general fund reported a positive fund balance of \$7,762,610.

USING THIS ANNUAL REPORT

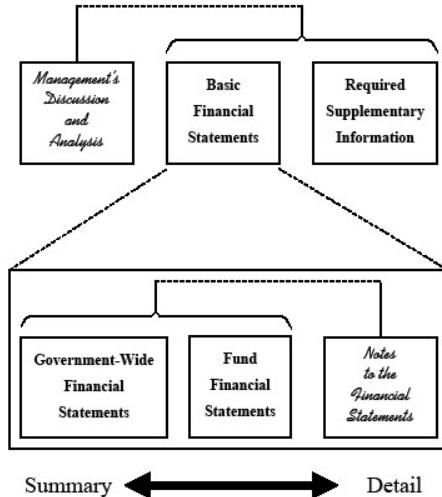

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the district.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Figure A-1: Required Components of The District's Annual Financial Information

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 12. Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in them. The District's net position (the difference between assets plus deferred outflows and liabilities plus deferred inflows) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, the District's activities are presented as:

Governmental activities—most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District accounts for activities using governmental funds.

Governmental funds—most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

As the District completed the year, its governmental funds reported a combined fund balance of \$19,516,600, which is less than last year's total of \$20,585,498. Included in this year's total change in fund balance is an increase of \$442,170 in the District's General Fund, a decrease of (\$1,720,896) in the Capital Projects Fund, an increase of \$162,779 in the Debt Service Fund, and a decrease of (\$4,481) in other non-major funds.

The District's General Fund balance of \$7,762,610 differs by \$127,354 from the General Fund's budgetary fund balance of \$7,635,256 reported in the budgetary comparison schedule.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2025, the District had \$23,007,746 of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. There was a net increase in capital assets of \$2,317,874 from last year due to current year additions exceeding depreciation expense.

During the current year, the District acquired a parcel of land for \$195,926. Additionally, the District invested \$311,136 in various improvements including safety doors, a press box addition, and roofing improvements. The District also purchased a range of equipment, such as a 2024 Suburban, 2025 Ford Transit, welding kits, and three used buses, with total equipment costs amounting to \$156,007.

In November 2022, the District appointed Altech, Inc. as its construction manager for projects funded through bond proceeds and managed with the Capital Projects Fund. On March 1, 2024 the District amended an agreement with Altech, Inc. to include the replacement of classroom buildings at Hooks Elementary and Junior High Schools, with a guaranteed minimum price of \$3,219,983. Change orders of (\$30,950) reduced the contract total to \$3,189,033. During the prior year, the District paid \$1,085,949 towards this amended contract and \$217,465 in architectural fees. In the current year, the District incurred \$2,103,084 related to this contract and \$25,070 in architectural fees. By year end, these projects were completed and reclassified to building and improvements in the amount of \$2,189,340 for the Elementary and \$1,242,228 for the Junior High.

During fiscal year 2024, the District began preparation for the construction of the High School gym and multipurpose facility. Architect fees of \$11,231 were incurred in the prior year. During fiscal year 2025 the District incurred \$6,718 in architect fees and \$111,968 in construction related to site preparation. A contract for the construction of the gym and multipurpose facility was signed subsequent to year end with a guaranteed minimum price of \$5,798,377. As of August 31, 2025, construction in progress reflects total project costs of \$129,917.

In fiscal year 2024, the District awarded an \$894,000 contract to JC Fence Company for the purchase and installation of security fencing at the Elementary, Junior High, High School, and Multipurpose Facility. In the prior year, project costs totaled \$754,087. In the current year, the District made payments to this contract in the amount of \$139,913 and incurred an additional \$228,618 for gates, electronic closers, and other costs. By year end, these projects were completed and reclassified to building and improvements in the amount of \$1,122,618.

During fiscal year 2024, the District disposed of a 2018 Dodge Caravan and 2018 Ford Transit.

More detailed information about the District's capital assets is represented in Note G of the financial statements.

Debt

At year-end, the District had outstanding bonds and notes of \$16,688,129, which was a decrease of (\$657,200). More detailed information about the District's debt is presented in Notes H, I and J to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's elected and appointed officials considered many social and economic factors when setting the fiscal-year 2026 budget and set the tax rates according to the mandated maximum compressed rate set by the State.

These indicators were considered when adopting the General Fund budget for 2026. Amounts available for appropriation in the General Fund budget are \$14.248 million, an increase of 3.68 percent over the final 2025 budget of \$13.742 million. The expected increase in budgeted expenditures is due to the purchases of a district vehicles and property improvements to the District. The District has continued all programs and initiatives begun in prior years budgets, which are being funded by increased state allotments.

If these estimates are realized, the District's budgetary General Fund balance is expected to increase by approximately \$227,000 at the close of 2026.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
AUGUST 31, 2025

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$	19,516,600
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$33,525,255 and the accumulated depreciation was (\$12,835,383). In addition, long-term liabilities of (\$15,895,001), including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.		4,794,871
2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the capital outlays and debt principal payments is to increase net position.		3,833,440
3 Included in the items related to the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount of \$967,109, a deferred resource inflow in the amount of (\$1,171,101), and a net pension liability in the amount of (\$2,515,102). This resulted in a (decrease) in net position.		(2,719,094)
4 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. The net position related to TRS included a deferred resource outflow in the amount of \$1,544,611, a deferred resource inflow in the amount of (\$2,951,692), and a net OPEB liability in the amount of (\$1,960,734). This resulted in a (decrease) in net position.		(3,367,815)
5 The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to (decrease) net position.		(957,809)
6 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to (decrease) net position.		(1,523,724)

HOOKS INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2025

EXHIBIT C-4

Total Net Change in Fund Balances - Governmental Funds	\$	(1,120,428)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the current year capital outlays and debt principal payments is to increase the change net position.		3,833,440
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to (decrease) the change in net position.		(957,809)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to (decrease) the change in net position.		(7,081)
GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$268,133. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the change in net position totaling (\$229,872). Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense (increased) decreased the change in net position by (\$27,099). The net result is an increase in the change in net position.		11,162
GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$61,915. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net OPEB liability. This caused a decrease in the change in net position totaling (\$58,686). Finally, the proportionate share of the TRS OPEB expense on the plan as a whole had to be recorded. The net OPEB expense (increased) decreased the change in net position by \$286,058. The net result is an increase in the change in net position.		289,287

HOOKS INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED AUGUST 31, 2025

Note A. Summary of Significant Accounting Policies

Hooks Independent School District (the “District”) is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the “Board”) elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (“GASB”) and other authoritative sources identified in *Statement on Auditing Standards No. 76* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency’s *Financial Accountability System Resource Guide* (the “Resource Guide”) and the requirements of contracts and grants of agencies from which it receives funds.

During the year ended August 31, 2025, the District implemented **GASB Statement No. 101, *Compensated Absences***. The Statement establishes recognition and measurement guidance for employee leave benefits. As a result, the District now recognizes a liability for leave that is attributable to services already rendered and is probable of resulting in payment, either through cash settlement or time off that reduces future service requirement. The implementation of this standard resulted in a restatement of beginning net position to record compensated absences in accordance with the new guidance.

1. Reporting Entity

The Board of School Trustees has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of Hooks Independent School District. The members of the Board of Trustees are elected by the public; have the authority to make decisions, appoint administrators and managers, and significantly influence operations; and have the primary accountability for fiscal matters. The District is not included in any other governmental “reporting entity” as defined by the GASB in its Statement No. 14, *The Financial Reporting Entity*. There are no component units included within the reporting entity. The District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

2. Government-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the Hooks Independent School District nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The “charges for services” column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the District, school lunch charges, etc. The “grants and contributions” column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If revenue is not program revenue, it is general revenue used to support all of the District’s functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due froms on the Governmental Fund Balance Sheet and as other resources and other uses on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Activities

The fund financial statements provide reports on the financial condition and results of operations for two fund categories –governmental and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. Revenues are considered to be available when they are collectible, if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept, that is, when they are both measurable and available. The District considers them available if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable.

4. Fund Accounting

The District's accounts are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which are comprised of each fund's assets, liabilities, equity, revenues, and expenditures or expenses.

The District reports the following major governmental funds:

General Fund - This fund is established to account for resources financing the fundamental operations of the District, in partnership with the community, in enabling and motivating students to reach their full potential. All revenues and expenditures not required to be accounted for in other funds are included here. This is a budgeted fund and any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees to implement its responsibilities.

Capital Projects Fund – This governmental fund is established to account for proceeds, on the modified accrual basis, from the sale of bonds and other resources to be used for Board authorized acquisition, construction, renovation, as well as furnishing and equipping of major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal.

Debt Service Fund – This governmental fund is established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. This is a budgeted fund and a separate bank account is maintained for this fund. Any unused sinking fund balances are transferred to the General Fund after all of the related debt obligations have been met.

Additionally, the District reports the following fund types:

Governmental Fund Type:

Special Revenue Funds - The District accounts for resources restricted or committed to specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund and sometimes unused balances must be returned to the grantor at the close of specified project periods. The Food Service fund is the only required budgeted fund. For all other funds in this fund type, project accounting is employed to maintain integrity for the various sources of funds.

Fiduciary Fund Type:

Fiduciary Funds – These funds are used to report student activity funds held by the District in a custodial capacity and the assets are for the benefit of the student organizations. The collections and disbursement amounts are controlled by a group which is governed by a representative student body.

5. Cash Equivalents

The District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.

6. Investments

Investments are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Certificates of deposit are recorded at amortized cost.

7. Inventories

All inventories are valued at cost using the first in/first out (FIFO) method. The District records purchases of supplies as expenditures. If any supplies are on hand at the end of the year, their total cost is recorded as inventory and the fund balance is reserved for the same amount.

8. Asset Capitalization and Useful Lives

Capital assets which include land, buildings and improvements, furniture and equipment, arts and collections, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings and improvements, furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings	50
Building Improvements	50
Vehicles	7
Furniture and Equipment	10

Inexhaustible assets such as arts and collections are not depreciable.

Depreciation of capital assets reported in the government-wide financial statements are allocated to the various governmental functions based on the proportionate share of total current year expenditures reported in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance.

9. Compensated Absences

The State of Texas has created a minimum personal leave program consisting of five days per year with no limit on accumulation and transferability amounts for every teacher regularly employed in Texas public schools.

It is the District's policy to permit employees to accumulate earned but unused leave benefits. Employees who complete their current contract and retire from Hooks Independent School District with a minimum of ten years of service are entitled to payment of their accumulated leave in a lump sum payment at rates set by the School Board. All unused leave is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

10. Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. In the fund financial statements, governmental fund types the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenses or debt expenditures.

11. Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statements of financial position (The government-wide Statement of Net Position and governmental funds balance sheet) will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position and/or fund balance that applies to one or more future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time.

12. Fund Equity

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes. GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories as following:

Nonspendable fund balance – represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaids) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted fund balance – represents amounts with external constraints placed on the use of these resources (such as debt covenants, grantors, other governments, etc.) or imposed by enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed fund balance – represents amounts that can only be used for specific purposes imposed by a formal action of the District's highest level of decision-making authority, the Board. Committed resources cannot be used for any other purposes unless the Board removes or changes the specific use by taking the same formal action that imposed the constraint originally.

Assigned fund balance – represents amount the District intends to use for specific purposes as expressed by the Board or an official delegated with the authority. The Board has delegated the authority to assign fund balances to the Superintendent and Business Manager.

Unassigned fund balance – represents the residual classification for the general fund or deficit balances in other funds.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and then unassigned fund balance.

13. Worker's Compensation Plan

Hooks Independent School District entered into an agreement with the Texas Educational Insurance Association to self-fund their workers' compensation plan. The agreement was effective September 1, 2001 and is administered by Claims Administrative Services, Inc. Prior to audit of the plan, the fixed cost amount for the District was \$24,052 and the loss fund maximum was \$73,030. The loss fund amount is for Hooks Independent School District's claims and for claims of other group members in excess of their loss fund maximum.

The Statement of Changes in Liability from 09/01/24 thru 08/31/25 is as follows:

	01/18	18/19	19/20	20/21	21/22	22/23	23/24	24/25	Total

14. Risk Management - Claims and Judgments

In the normal course of operations, the District is exposed to risks of loss from a number of sources including fire and casualty losses, errors or omissions by board members and employees, and injuries to employees during the course of performing their duties. The District attempts to cover these losses by the purchase of insurance. Significant losses are covered by commercial insurance for property and liability programs. The District entered into an agreement with the Texas Educational Insurance Association to participate in their workers' compensation program. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

In management's estimation there are no current loss claims that exceed the maximum coverage or any material unfunded claim benefit obligation for the self-funded programs.

15. Restricted Assets

When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.

16. Functions

School Districts are required to report all expenses by function, except certain indirect expenses. General administration, data processing service and other intergovernmental charges functions (data control codes 41, 53, and 99 respectively) include expenses that are indirect expenses of other functions. These indirect expenses are not allocated to other functions.

17. Data Control Codes

The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide data base for policy development and funding plans.

18. Estimates and Assumptions

The preparation of financial statements in conformity with generally accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

19. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

20. Other Post-Employment Benefit

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Note B. Stewardship, Compliance and Accountability

Budgetary Data

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 and the other two reports appear in Exhibit J-2 and J-3.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end.

Because the District has a policy of careful budgetary control, several amendments were necessary during the year. The following amendments were as follows:

General Fund:

Increase in revenues - Local and Intermediate Sources	409,400
Increase in revenues - State Program Revenues	840,500
Increase in revenues - Federal Program Revenues	5,000
(Increase) in expenditures Function 11 - Instruction	(541,235)

Increase in other financing sources - Transfers In	60,000
(Increase) in other financing uses - Transfers Out	<u>(130,000)</u>
	<u>65,800</u>

Food Service Fund

Increase in revenues - Federal Program Revenues	43,000
(Increase) in expenditures Function 35 - Food Service	(102,000)
Increase in other financing sources - Transfers In	<u>60,000</u>
	<u>1,000</u>

Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

The District's Food Service Fund is considered a special revenue fund since it meets the following criteria: (1) User fees are charged to supplement the National School Lunch Program (NSLP), (2) The General Fund subsidizes the Food Service Program for all expenditures in excess of NSLP, and (3) The District does not consider the Food Service Program completely self-supporting. Food Service fund balances are used exclusively for child nutrition program purposes.

A reconciliation of fund balances for both appropriated budget and nonappropriated budget Nonmajor Governmental Special Revenue Funds is as follows:

	08/31/25
	<u>Fund Balance</u>
Appropriated Budget Funds - Food Service Special Revenue Fund	20,498
Nonappropriated Budget Funds	<u>91,756</u>
All Nonmajor Governmental Special Revenue Funds	<u><u>112,254</u></u>

Note C. Deposits and Investments

District Policies and Legal and Contractual Provisions Governing Deposits:

Custodial Credit Risk for Deposits -State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial credit risk for deposits.

The captions and amounts of cash and cash equivalents on the Balance Sheet and Statement of Fiduciary Net Position at August 31, 2025 consist of the following:

	General Fund	Capital Projects	Debt Service Fund	Special Revenue Funds	Balance Sheet Total	Fiduciary Funds
Cash and Cash Equivalents	1,560,107	-	11,882	44,992	1,616,981	9,673
Investments in Pools	<u>5,492,171</u>	<u>10,486,659</u>	<u>1,311,504</u>	-	<u>17,290,334</u>	-
Total Cash and Cash Equivalents	<u>7,052,278</u>	<u>10,486,659</u>	<u>1,323,386</u>	<u>44,992</u>	<u>18,907,315</u>	<u>9,673</u>

The District's cash deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) at August 31, 2025 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name. The District's cash deposits were collateralized during the year ending August 31, 2025.

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Public Funds Investment Act (PFIA) governs the District's investment policies and type of investments.

The District's management believes that it complied with the requirements of the PFIA and the District's investment policies.

As of August 31, 2025, Hooks Independent School District had the following investments:

<u>Investment Type:</u>	<u>Amortized Cost</u>
TexPool Investment Pools	46,738
Lone Star Investment Pools -	
Corporate Overnight Fund	4,363
Government Overnight Fund	6,862
Corporate Overnight Plus Fund	17,232,371
Total Investment Pools	<u>17,290,334</u>

The Texas Local Government Investment Pool ("TexPool") and the Lone Star Investment Pool ("Lone Star") are organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the [Texas Government Code](#). The Texas Comptroller of Public Accounts is the sole officer, director and shareholder of the Texas Treasury Safekeeping Trust Company ("Trust Company"), which is authorized to operate TexPool.

Pursuant to the TexPool Participation Agreement, administrative and investment services to TexPool are provided by Lehman Brothers Inc. and Federated Investor's, Inc., under an agreement with the Comptroller, acting on behalf of the Trust Company. In addition, the TexPool Advisory Board advises on TexPool's Investment Policy and approves any fee increases. As required by the Public Funds Investment Act, this Board is composed equally of participants in TexPool and other persons who do not have a business relationship with TexPool who are qualified to advise TexPool.

Lone Star's Advisory Board is composed of participants and other knowledgeable individuals representing public schools, public junior colleges, cities, counties, and other local governments. The purpose of the Advisory Board is to gather and exchange information from participants and nonparticipants relating to the operation of Lone Star Investment Pool. Lone Star employs an independent third-party bank, Mellon Bank, to perform custody and valuation services. Investment advisory services are provided by Standish Mellon and AMR Investments. An independent auditor, Ernst & Young LLP, provides an annual audit of Lone Star's financial statements.

Additional policies and contractual provisions governing deposits and investments for Hooks Independent School District are specified below:

Credit Risk- To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments in Obligations of the United States or its agencies and instrumentalities; direct obligations of the State of Texas or its agencies and instrumentalities; certificates of deposits; fully collateralized repurchase agreements that have a defined termination date and secured by obligations of the United States or its agencies and instrumentalities; public funds investment pools; collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States rated not less than A or its equivalent issued by nationally recognized statistical rating organizations (NRSROs). As of August 31, 2025, the District's investments in public funds investment pools were rated AAA by Standard & Poor's.

Interest Rate Risk - To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires invested instruments maturities do not exceed one year from the time of purchase except when a longer maturity may be specifically authorized by the Board for a given investment provided legal limits are not exceeded.

Note D. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. The assessed value of the roll on January 1, 2024 upon which the levy for the 2025 fiscal year was based was \$207,072,674. The tax rates levied for the year ended August 31, 2025 to finance General Fund operations and the payment of principal and interest on general obligations long-term debt were \$0.7575 and \$0.4300 per \$100 per valuation respectively, for a total of \$1.1875 per \$100 valuation.

Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they are collected.

Note E. Delinquent Taxes Receivable

Delinquent taxes are prorated between maintenance (General Fund) and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General Fund and Debt Service Fund are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Note F. Disaggregation of Receivables and Payables

Receivables at August 31, 2025, were as follows:

	<u>Property Taxes</u>	<u>Other Governments</u>	<u>Total Receivables</u>

During the current year, the District acquired a parcel of land for \$195,926. Additionally, the District invested \$311,136 in various improvements including safety doors, a press box addition, and roofing improvements. The District also purchased a range of equipment, such as a 2024 Suburban, 2025 Ford Transit, welding kits, and three used buses, with total equipment costs amounting to \$156,007.

In November 2022, the District appointed Altech, Inc. as its construction manager for projects funded through bond proceeds and managed with the Capital Projects Fund. On March 1, 2024 the District amended an agreement with Altech, Inc. to include the replacement of classroom buildings at Hooks Elementary and Junior High Schools, with a guaranteed minimum price of \$3,219,983. Change orders of (\$30,950) reduced the contract total to \$3,189,033. During the prior year, the District paid \$1,085,949 towards this amended contract and \$217,465 in architectural fees. In the current year, the District incurred \$2,103,084 related to this contract and \$25,070 in architectural fees. By year end, these projects were completed and reclassified to building and improvements in the amount of \$2,189,340 for the Elementary and \$1,242,228 for the Junior High.

During fiscal year 2024, the District began preparation for the construction of the High School gym and multipurpose facility. Architect fees of \$11,231 were incurred in the prior year. During fiscal year 2025 the District incurred \$6,718 in architect fees and \$111,968 in construction related to site preparation. A contract for the construction of the gym and multipurpose facility was signed subsequent to year end with a guaranteed minimum price of \$5,798,377. As of August 31, 2025, construction in progress reflects total project costs of \$129,917.

In fiscal year 2024, the District awarded an \$894,000 contract to JC Fence Company for the purchase and installation of security fencing at the Elementary, Junior High, High School, and Multipurpose Facility. In the prior year, project costs totaled \$754,087. In the current year, the District made payments to this contract in the amount of \$139,913 and incurred an additional \$228,618 for gates, electronic closers, and other costs. By year end, these projects were completed and reclassified to building and improvements in the amount of \$1,122,618. Fencing projects were funded through a state security grant.

During fiscal year 2025, the District disposed of a 2018 Dodge Caravan and 2018 Ford Transit.

Depreciation expense was charged to governmental functions as follows:

Note H. Bonds Payable and Debt Service Requirements

On February 9, 2012, Hooks Independent School District issued \$2,635,000 of Unlimited Tax Refunding Bonds, Series 2012 to redeem the Unlimited Tax School Building Bonds, Series 2002. This issue was comprised of \$2,635,000 Current Interest Bonds with interest rates between 1.0-3.0% maturing annually from February 15, 2013 through 2027.

On March 16, 2016, the District issued \$4,760,000 of Unlimited Tax Refunding Bonds, Series 2016 to refund \$4,910,000 of the Current Interest Series 2008 Refunded Bonds and Series 2010 Refunded Bonds outstanding. The Series 2016 issue was comprised of \$4,760,000 of Current Interest Bonds with interest rates ranging from 2.75% to 4.00% maturing annually from February 15, 2018 through 2033.

In 2022, the District issued \$12,425,000 of Unlimited Tax School Building Bonds, Series 2022 to (a) acquire, construct, renovate, and equipping school facilities and an indoor practice facility and (b) to pay the costs of issuing the bonds. The Series 2022 issue was comprised of Current Interest Bonds with interest rates ranging from 2.0% to 3.5% maturing annually from February 15, 2028 through 2052.

A summary of changes in bonded debt for the year ended August 31, 2025 is as follows:

	Stated Interest Rate	Amounts Original Issue	Amounts Outstanding 09/01/24	Bonds Issued/ Accretion	Bonds Retired	Amounts Outstanding 08/31/25

			<u>15,895,001</u>	<u>-</u>	<u>555,000</u>	<u>15,340,001</u>

In the governmental fund financial statements, the current expenditures for principal and interest expenditures are accounted for in the Debt Service Fund in the Statement of Revenues, Expenditures and Changes in Fund Balance. During the year ended August 31, 2025, the District paid \$555,000 in principal, \$530,162 in interest, and \$5,000 in fees.

Bonded debt service requirements are as follows:

Year Ended <u>August 31</u>	<u>Unlimited Tax School Building and Refunding Bonds</u>		
	Principal	Interest	Total Requirements
2026	505,000	519,862	1,024,862

2051-2052	1,660,001	45,925	1,705,926
	<u>15,340,001</u>	<u>7,884,771</u>	<u>23,224,772</u>

In the government-wide financial statements, bonded indebtedness of the District is reflected in the Statement of Net Position. Premium on issuance of bonds, net of accumulated amortization, totaled \$1,348,128 at August 31, 2025. Amortization of \$102,200 is reflected in the Statement of Activities for the year ended August 31, 2025.

There are a number of limitations and restrictions contained in the general obligation bond indenture. Management has indicated that the District is in compliance with all significant limitations and restrictions at August 31, 2025. Hooks Independent School District has entered into a continuing disclosure undertaking to provide Annual Reports and material Event Notices to the State Information Depository of Texas (SID), which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of Hooks Independent School District.

Note I. Accumulated Leave Benefits Payable and Prior Period Adjustment

Employees earn state personal leave which may either be taken or accumulated. Employees who complete their current contract and retire from Hooks ISD with a minimum of 10 years of service are entitled to payment of their accumulated state personal leave in a lump sum payment at rates set by the School Board. The summary of changes in the liability are as follows:

Balance September 1, 2024	55,260
Additions	400
Deductions	<u>-</u>
Balance August 31, 2025	<u>55,660</u>

Under the provisions of **GASB Statement No. 101, Compensated Absences**, the District recognizes a liability for leave that is attributable to services already rendered, accumulates from period to period, and is probable of resulting in payment, either through cash settlement or time off that reduces future service requirements.

The liability for compensated absences includes amounts expected to be paid upon termination or retirement as well as benefits expected to be used for time off in lieu of additional pay. The liability is measured using the pay rates and benefit costs in effect at the reporting date.

The total compensated absences liability at August 31, 2025, consisted of the following components:

Description	Amount
Current portion - expected to be paid within one year	42,071
Long-term portion - expected to be paid after one year	278,882
Total compensated absences liability	<u>\$ 320,953</u>

The adoption of this standard resulted in the District's accounting for compensated absences, requiring the accrual of additional amounts for certain types of leave that were not previously recognized as liabilities. As a result, the beginning net position of the governmental activities as of September 1, 2024, was decreased by (\$257,602) to recognize the additional liability for compensated absences in accordance with the new standard. The comparative financial statements for the prior year have been restated to reflect this change in accounting principle.

Description	Governmental Activities
Net position, as previously stated	17,733,970
Cumulative effect of GASB 101	(257,602)
Net position, as restated	<u>\$ 17,476,368</u>

Note K. Defined Benefit Pension Plan (TRS)

Plan Description. Hooks Independent School District participates in a multiple-employer, cost-sharing, defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov/learning-resources/publications>; by writing to TRS at attention Finance Division, PO BOX 149676, Austin, TX 78714-0185, or by calling [1-800-223-8778](tel:1-800-223-8778).

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above. Accordingly, the 2023 Texas Legislature passed Senate Bill (SB) 10 and House Joint Resolution (HJR) 2 to provide eligible retirees with a one-time stipend and an ad hoc cost-of-living-adjustment (COLA).

One-Time Stipends. Stipends, regardless of annuity amount, were paid in September 2023 to annuitants who met the qualifying age requirement on or before August 31, 2023:

- A one-time \$7,500 stipend to eligible annuitants who are 75 years of age and older.
- A one-time stipend to eligible annuitants age 70 to 74.

Cost-of-Living Adjustment. A cost-of-living adjustment (COLA) was dependent on Texas voters approving a constitutional amendment (Proposition 9) to authorize the COLA. Voters approved the amendment in the November 2023 election and the following COLA was applied to eligible annuitants' payments beginning with their January 2024 payment:

- 2% COLA for eligible retirees who retired between September 1, 2013 through August 31, 2020.
- 4% COLA for eligible retirees who retired between September 1, 2001 through August 31, 2013.
- 6% COLA for eligible retirees who retired on or before August 31, 2001.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 thru 2025.

Contribution Rates		2024	2025
Member (Employees)		8.25%	8.25%
Non-Employer Contributing Entity (State)		8.25%	8.25%
Employer (District)		8.25%	8.25%
 HISD Member Contributions		600,501	631,760
HISD Employer Contributions		229,872	268,133
HISD NECE On-Behalf Contributions		388,692	473,784

Contributors to the plan include active members, employers and the State of Texas as the only non-employer contributing entity. The State is also the employer for senior colleges and universities, medical schools, and other entities including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior colleges, universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the state contribution rate for certain instructional or administrative employees and 100 percent of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is a surcharge an employer is subject to.

- All public schools, charter schools, and regional education service centers must contribute 1.9 percent of the member's salary beginning in fiscal year 2024, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Net Pension Liability. Components of the net pension liability of the plan as of August 31, 2024 are disclosed below:

Components of Liability	Amount
Total Pension Liability	\$ 271,627,434,294
Less: Plan Fiduciary Net Position	(210,543,258,495)
Net Pension Liability	\$ 61,084,175,799
Net Position as Percentage of Total Pension Liability	77.51%

Actuarial Assumptions. The total pension liability in the August 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2023 rolled forward to August 31, 2024
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-Term Expected Rate	7.00%
Municipal Bond Rate as of August 2024	3.87% - The source for the rate is the Bond Buyers 20 Index which represented the estimated yeild of a portfolio of 20 general obligation bonds maturing in 20 years based on a survery of municipal bond traders.
Last year ending August 31 in	
Projection Period	2123
(100) years	
Inflation	2.30%
Salary Increases	2.95% to 8.95% including inflation
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2023. For a full description of these assumptions please see the actuarial valuation report dated November 21, 2023.

Discount Rate. A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.54 percent of payroll in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.00 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2024 are summarized below:

Asset Class	Target Allocation % **	Long-Term Expected Arithmetic Real Rate of Return***	Expected Contribution to Long-Term Portfolio Returns

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the net pension liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (7%) in measuring the Net pension liability.

	1% Decrease in Discount Rate (6.00%)	Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)
HISD's proportionate share of the net pension liability	4,017,254	2,515,102	1,270,461

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2025, Hooks ISD reported a liability of \$2,515,102 for its proportionate share of the TRS net pension liability. This liability reflects a reduction for State pension support provided to Hooks ISD. The amount recognized by Hooks ISD as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with Hooks ISD were as follows:

District's proportionate share of the collective net pension liability	\$ 2,515,102
State's proportionate share that is associated with the District	5,135,558
Total	\$ 7,650,660

The net pension liability was measured as of August 31, 2023 and rolled forward to August 31, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2023 thru August 31, 2024.

On August 31, 2024 the employer's proportion of the collective net pension liability was 0.0041174355%, which was an increase (decrease) of (0.0022628178%) from its proportion measured as of August 31, 2023.

Changes in Assumptions and Benefits Since the Prior Actuarial Valuation

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The 2023 Taxes Legislature passed Senate Bill 10 (SB 10), which provided a stipend payment to certain retirees and variable ad hoc cost-of-living adjustments (COLA) to certain retirees in early fiscal year 2024. Due to its timing, the legislation and payments were not reflected in the August 31, 2023 actuarial valuation. Under the roll forward method, an adjustment was made to reflect the legislation in the rolled forward liabilities for the current measurement year, August 31, 2024. SB 10 and House Joint Resolution 2 (HJR 2) of the 88th Regular Legislative Session appropriated payments of \$1.645 billion for one-time stipends and \$3.355 billion for COLAs. This appropriation is treated as a supplemental contribution and included in other additions. Since the Legislature appropriated funds for this one-time stipend and COLA, there was no impact on the Net Pension Liability of TRS.

The amount of pension expense recognized by (Employer) in the reporting period was \$870,756.

For the year ended August 31, 2025, Hooks School recognized pension expense of \$870,756 and revenue of \$613,785 for support provided by the State.

At August 31, 2025, Hooks School reported its proportionate share of the TRS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual economic experience	\$ 138,629	\$ 19,637
Changes in actuarial assumptions	129,860	17,410
Difference between projected and actual investment earnings	15,288	-
Changes in proportion and difference between the employer contributions and the proportionate share of contributions	415,199	1,134,054

Note L. Defined Other Post-Employment Benefit Plans

Plan Description. Hooks Independent School District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost sharing defined benefit OPEB plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS- Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about TRS-Care's fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov/learning-resources/publications>; by writing to TRS at P.O. BOX 149676, Austin, TX 78714-0185; or by calling [\(800\) 223-8778](tel:(800)223-8778).

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates

	<u>Medicare</u>	<u>Non-Medicare</u>
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and participating employers are based on active employee compensation. The TRS Board does not have the authority to set or amend contribution rates.

Texas Insurance Code, Section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65 percent of pay. Section 1575.204 establishes a public school contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the legislature in the General Appropriations Act, which is 0.75 percent of each active employee's pay for fiscal year 2024. The following table shows contributions to the TRS-Care plan by type of contributor.

<u>Contribution Rates</u>		2024	2025
Active Employee		0.65%	0.65%
Non-Employer Contributing Entity (State)		1.25%	1.25%
Employers		0.75%	0.75%
Federal/private Funding remitted by Employers		1.25%	1.25%
 HISD Member Contributions		47,316	49,774
HISD Employer Contributions		58,686	61,915
HISD NECE On-behalf Contributions		93,321	73,525

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether they participate in the TRS Care OPEB program*). When hiring a TRS retiree, employers are required to pay TRS Care, a monthly surcharge of \$535 per retiree.

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2023. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2024. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2023 TRS pension actuarial valuation that was rolled forward to August 31, 2024:

Rates of Mortality	Rates of Disability
Rates of Retirement	General Inflation
Rates of Termination	Wage Inflation

The active mortality rates were based on PUB (2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2023 rolled forward to August 31, 2024
Actuarial Cost Method	Individual Entry-Age Normal
Inflation	2.30%
Single Discount Rate	3.87% as of August 31, 2024 Based on the Society of Actuaries' 2013 Study "Health Care Costs - From Birth to Death".
Aging Factors	Third-party administrative expenses related to the delivery of health care benefits are included in the age- adjusted claims costs.
Expenses	
Salary Increases	2.95% to 8.95%, including inflation
Ad Hoc Post-Employment Benefit Changes	None

Discount Rate: A single discount rate of 3.87 percent was used to measure the total OPEB liability. This was a decrease of 0.26 percent in the discount rate since the previous year.

Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the Single Discount Rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Bond Buyer's "20 Bond GO Index" as of August 31, 2024 using the Fixed Income Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (3.87%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (2.87%)	Current Single Discount Rate (3.87%)	1% Increase in Discount Rate (4.87%)
HISD's proportionate share of the Net OPEB Liability	2,329,443	1,960,734	1,662,811

Healthcare Trend Rate Sensitivity Analysis. The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

	1% Decrease	Current Single Healthcare Trend Rate	1% Increase
Proportionate share of Net OPEB Liability	1,596,726	1,960,734	2,435,071

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. At August 31, 2025 the District reported a liability of \$1,960,734 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective Net OPEB Liability	\$ 1,960,734
State's proportionate share that is associated with the District	<u>2,456,773</u>
Total	<u>\$ 4,417,507</u>

The Net OPEB Liability was measured as of August 31, 2023 and rolled forward to August 31, 2024 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2023 thru August 31, 2024.

On August 31, 2024 the employer's proportion of the collective Net OPEB Liability was 0.0064600812% which was an increase (decrease) of (0.0024553369%) from its proportion measured as of August 31, 2023.

Changes in Since the Prior Actuarial Valuation. The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

- The single discount rate changed from 4.13 percent as of August 31, 2023 to 3.87 percent as of August 31, 2024, accompanied by revised demographic and economic assumptions based on the TRS experience study.
- The tables used to model the impact of aging on the underlying claims were revised.

Changes of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

The amount of OPEB expense recognized by (Employer) in the reporting period was (\$546,707).

For the year ended August 31, 2025, Hooks Independent School District recognized OPEB expense of (\$546,707) and revenue of (\$319,335) for support provided by the State.

On August 31, 2025, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual economic experience	\$ 375,807	\$ 978,512
Changes in actuarial assumptions	250,951	639,765
Difference between projected and actual investment earnings	-	5,490
Changes in proportion and difference between the employer contributions and the proportionate share of contributions	855,938	1,327,925
Total as of August 31, 2024 measurement date	\$ 1,482,696	\$ 2,951,692
Contributions paid to TRS subsequent to the measurement date of the Net OPEB Liability (to be calculated by employer)	61,915	-
Total as of August 31, 2025 fiscal year-end	\$ 1,544,611	\$ 2,951,692

Hooks Independent School District recognized \$1,544,611 as deferred outflows of resources related to OPEB resulting from Hooks Independent School District contributions subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the measurement year ended August 31, 2024. The other amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Note M. Medicare Part D (TRS)

Federal Government Retiree Drug Subsidy - The Medicare Modernization Act of 2003 (MMA) created an outpatient prescription drug benefit program (known as Medicare Part D) and a Retiree Drug Subsidy (RDS) program which were made available in 2006. The Texas Public School Retired Employee Group Insurance Program (TRS-Care) is offering a Medicare Part D Plan and is participating in the Retiree Drug Subsidy plan for eligible TRS-Care participants. Under Medicare Part D and the RDS program, TRS-Care receives payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. On-behalf payments must be recognized as equal revenues and expenditures/expenses by each reporting entity.

The allocation of these on-behalf payments is based on the ratio of a reporting entity's covered payroll to the entire covered payroll reported by all participating reporting entities. TRS based this allocation percentage on the "completed" report submission by reporting entities for the month of May. Any questions about payroll amounts should be directed to a reporting entity's payroll contact.

Contribution amounts are as follows: State Contributions for Medicare Part D made on behalf of Hooks Independent School District's employees were \$66,134 for the year ended August 31, 2025. State Contributions for Medicare Part D made on behalf of Hooks Independent School District's employees were \$38,697 for the year ended August 31, 2024. State Contributions for Medicare Part D made on behalf of Hooks Independent School District's employees were \$41,331 for the year ended August 31, 2023.

Note N. Health Care Coverage

During the year ended August 31, 2025 employees of Hooks Independent School District were covered by a uniform statewide health care program for public education employees. The District contributed \$225 per month, which includes the \$75 which is reimbursed by the state, per employee to the Plan. Employees, at their option, may authorize payroll withholdings to pay the remaining balance of the premium for employee coverage and/or dependents. All contributions/premiums were paid to the statewide health care program. The Plan was authorized by House Bill 3343 and will be administered by the Teacher Retirement System of Texas (TRS). The TRS board approved the selection of Blue Cross Blue Shield as the health plan administrator and Express Scripts as the pharmacy benefits manager for TRS-ActiveCare.

Note O. Commitments and Contingencies

Litigation - The District may be subjected to loss contingencies arising principally in the normal course of operations. In the opinion of the administration, the outcomes of these lawsuits will not have a material adverse effect on the accompanying financial statements and accordingly, no provision for losses has been recorded.

Grant Programs - The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at August 31, 2025 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

Note P. Deferred Outflows of Resources (Government-Wide Activities)

The following is a summary of changes in deferred outflows of resources - deferred charges on refunding for the year ended August 31, 2025:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>
Deferred charges on refundings	<u>54,264</u>	<u>-</u>	<u>11,342</u>	<u>42,922</u>

Deferred charges on refunding bond, net of accumulated amortization, totaled \$42,922 at August 31, 2025. Amortization of \$11,342 is reflected in the Statement of Activities for the year ended August 31, 2025.

Note Q. Deferred Inflows of Resources (Governmental Funds)

Unavailable revenue – property taxes sat August 31, 2025 consisted of the following:

	General Fund	Service Fund	Debt
			Total
Net uncollected tax revenue	<u>125,898</u>	<u>57,435</u>	<u>183,333</u>

Note R. Due From/To Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from/to federal and state governments as of August 31, 2025 are summarized below.

Fund	State Entitlements	Federal Grants	Total
Governmental Activities:			
<u>Due From Other Governments</u>

The General Fund transferred \$313,833 to Co-curricular Funds and \$53,433 to Food Service Fund to subsidize operations of the food service fund.

Note T. Shared Service Arrangements

The District participates in several Shared Service Arrangements (“SSA”) described as follows:

State Funded - New Boston ISD fiscal agent: The District participates in a State funded SSA which provides special education services and alternative education services to member districts. In addition to the District, other member districts include various other districts in Bowie County. All services are provided by the fiscal agent. The member districts provide the funds to the fiscal agent.

State Funded - Bowie County Schools Transportation Department fiscal agent: The District participates in a state funded SSA which provides transportation services to member districts. In addition to the District, other member districts include all the districts in Bowie County. All services are provided by the fiscal agent. The Texas Education Agency and the member districts provide funds to the fiscal agent. Although a portion of the funding received by the fiscal agent from the Texas Education Agency is attributable to the District's participation; the District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The fiscal agent manager is responsible for all financial activities of the shared service arrangement.

The District has accounted for their portion of the payment of the activities of the SSA in the General Fund Function 93, Shared Services Arrangements, and has accounted for the payment using Model 3 in the SSA section of the Resource Guide. These payments totaled \$608,586 for the year ended August 31, 2025 and were as follows:

SSA - Special Education	420,801
SSA - Alternative Education	57,646
SSA - Transportation	129,139
SSA - School for the Deaf	1,000
	<u>608,586</u>

State and Federally Funded – New Boston ISD fiscal agent - The District participates in a state and federally funded SSA which provides special education services to member districts. In addition to the District other member districts include various other districts in Bowie County. All services are provided by the fiscal agent. The Texas Education Agency provides state and federal grant funds to the fiscal agent. Although a portion of the activity of the shared services arrangement is attributable to the District's participation, the District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The fiscal agent is neither accumulating significant financial resources nor fiscal contingencies that would give rise to a future additional benefit or burden to Hooks Independent School District. The fiscal agent manager is responsible for all financial activities of the shared services arrangement. The fiscal agent has accounted for the activities of the SSA using Model 2 in the SSA section of the Resource Guide.

The fiscal agent has accounted for the grant funds as follows:

SSA - State Funded Visually Impaired
SSA - Federally Funded IDEA, Part B Formula
SSA - Federally Funded IDEA, Part B Preschool

Note W. Prior Period Adjustment – Reclassification of Activity Funds

During the current year, the District identified that certain student activity fund balance previously reported in fiduciary funds did not meet the definition of a fiduciary activity under GASB Statement No. 84 and related implementation guidance. As a result, these balances were reclassified and are now reported in special revenue funds. Accordingly, beginning fund balance as of September 1, 2024 was restated to reflect the reclassification of \$51,530 from fiduciary funds to special revenue funds.

Fund	Increase (Decrease)
Special Revenue Funds (461)	51,530
Fiduciary Funds (865)	(51,530)

Note X. Summary of Prior Period Adjustments

As discussed in Notes I and W, the District recorded prior period adjustments to restate beginning balances as of September 1, 2024. These adjustments resulted from (1) the reclassification of student activity fund balances from fiduciary funds to special revenue funds and (2) the implementation of GASB Statement No. 101.

The following table summarizes the effect of these restatements on the District's financial statements:

Description	Govermental Funds	Government-Wide
Reclassification of activity funds (Note W)	51,530	51,530
Implementation of GASB Statement No. 101 (Note I)	-	(257,602)
Total prior period adjustment	<u>51,530</u>	<u>(206,072)</u>

Note Z. Subsequent Events

Management evaluated subsequent events after the date of the balance sheet and prior to the release of these financial statements which was January 22, 2026.

**HOOKS INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2025**

A. Notes to Schedules for the TRS Pension

Changes of Benefit terms.

The Texas 2023 Legislature passed Senate Bill 10 (SB 10), which provided a stipend payment to certain retirees and variable ad hoc cost-of-living adjustments (COLA) to certain retirees in early fiscal year 2024. Due to its timing, the legislation and payments were not reflected in the August 31, 2023 actuarial valuation. Under the roll forward method, an adjustment was made to reflect the legislation in the rolled forward liabilities for the current measurement year, August 31, 2024. SB 10 and House joint Resolution 2 (HJR 2) of the 88th Regular Legislative Session appropriated payments of \$1,645 billion for one-time stipends and \$3,355 billion for COLAs. This appropriation is treated as a supplemental contribution and included in other additions. Since the Legislature appropriated funds for this one-time stipend and COLA, there was no impact on the Net Pension Liability of TRS.

Changes of Assumptions.

There were no changes in assumptions.

B. Notes to Schedules for the TRS OPEB Plan

Changes in Benefits.

There were no changes in benefits.

Changes in Assumptions.

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- The single discount rate changed from 4.13 percent as of August 31, 2023 to 3.87 percent as of August 31, 2024, accompanied by revised demographic and economic assumptions based on the TRS experience study.
- The tables used to model the impact of aging on the underlying claims were revised.

Independent Auditor's Report

Board of Trustees
Hooks Independent School District
100 E. 5th Street
Hooks, TX 75561

Members of the Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Hooks Independent School District (the District), as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 22, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hooks Independent School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Independent Auditor's Report

Board of Trustees
Hooks Independent School District
100 E. 5th Street
Hooks, TX 75561

Members of the Board:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Hooks Independent School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2025. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Hooks Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists.

The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**HOOKS INDEPENDENT SCHOOL DISTRICT
NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2025**

- 1 For all Federal programs, the District uses the fund types specified in Texas Education Agency's Financial Accountability System Resource Guide. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.
- 2 The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund or, in some instances, in the General Fund which are Governmental Fund type funds.

With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

- 3 The District has elected to not use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.
- 4 The District must submit to the pass-through entity, no later than 90 calendar days (or an earlier date as agreed upon by the pass-through entity and District) after the end date of the period of performance, all financial, performance, and other reports as required by the terms and conditions of the Federal award. The Federal awarding agency or pass-through entity may approve extensions when requested and justified by the non-Federal entity, as applicable. (2 CFR 200.34(a))

Unless the Federal awarding agency or pass-through entity authorizes an extension, a non-Federal entity must liquidate all financial obligations incurred under the Federal award no later than 120 calendar days after the end date of the period of performance as specified in the terms and conditions of the Federal award. (2 CFR 200.344(b))

- 5 The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Availability of Federal Funds, Part 3, Uniform Guidance.
- 6 Nonmonetary assistance received from the Commodity Supplemental Food Program is recorded in fair market value of the commodities received and disbursed. The revenue and expense are reported in the Food Service Special Revenue Fund.
- 7 Assistance Listing numbers for commodity assistance are the Assistance Listing numbers of the programs under which USDA donated the commodities.
- 8 A reconciliation of federal program revenues and expenditures is as follows:

General Fund	27,188
Special Revenue Funds	<u>833,714</u>
Sub -total	860,902
Less Medicaid Arrangements Payments:	
SSA - School Health & Related Services (SHARS)	<u>(17,940)</u>
Total Federal Program Expenditures	\$842,963
